ACADEMIC PROJECTS

Airline Management System
C# Visual Studio, SQL server
The project is based on the concept of Airline Reservation. The user of the system has to pass through a login system for using its features. User can add passengers, staff members, and flight records and can book or cancel the tickets for the passengers.

Speed Typing Test App
Python, PyCharm Tool
The Speed Typing Test Project is written in python programming language, using this project we can check and even improve our typing speed.
